

# Welsh Language Policy statement

BHS Qualifications (BHSQ) is committed to making sure all its activities are conducted safely, fairly, transparently and objectively. This policy is for all BHSQ customers, stakeholders and learners.

This policy is about the availability of BHSQ qualifications in Welsh.

This policy will:

- Identify BHSQ's current position about its qualifications being available in Welsh.
- Identify how candidates can complete a BHSQ qualification in Welsh.

BHSQ does not currently make any of its qualifications available in Welsh. However, if a candidate wishes to take a qualification in Welsh they may do so.

BHSQ has a policy called Assessment of BHSQ Qualifications in a Language other than English. This policy explains the process of completing a qualification in a language other than English, including the design and content of certificates.

For clarity those candidates wishing to complete a BHSQ qualification in Welsh would follow this policy. These candidates will receive a certificate that clearly identifies that the language of assessment was Welsh.

## Monitoring and review

This document and its content will be reviewed on a three year cycle, or earlier should it be needed to ensure it remains fit for purpose.

**Date for review:** January 2027
